

Proposed Exclusive Event

World Class Cars

Paired to

Luscious Wines

By the world's Greatest Sommeliers

Like cars, wine is about finesse and elegance, they are both about sensations, they are both about celebration. We propose an exclusive event where luscious wines are paired to the world's greatest automobiles by the most renowned and respected sommeliers. Guests will enjoy a sit down wine tasting to a moving exhibition of fine automobiles.

This event is about the experience of sensations, the symbiosis between the eye and the palate, between the cars and the wine. The sommeliers challenge is to find the ideal wine to be appreciated with each extraordinary car presented. The celebrity sommeliers explain to the invited guests the intricate fundamentals of pairing a particular wine to a classic car presented on the runway. *"Cars and wines have a lot in common, both are equally exclusive, desirable and beautiful."*
Andoin de Dampierre - Champagne producer and car collector.
